

## ***EasyClean10 Glass Treatment Makes Cleaning Interior and Exterior Glass a Breeze***

### ***EasyClean10 Details:***

- EasyClean10 is an ultra-thin transparent coating that completely adheres to the glass surface and provides protection that will repel both water and oil based stains.
- Untreated glass, tiles and grout surfaces are porous and as a result absorb mineral deposits and soap scums, over time making it very difficult to clean.
- EasyClean10 is similar to a non-stick fry pan, cleaning is made easier using only water and a mild detergent or with a microfiber cloth.
- Scrubbing with harsh toxic cleaners is not needed, EasyClean10 Glass Treatment makes cleaning glass so simple.
- EasyClean10 Glass Treatment is Backed by the Power of 10! Extensive testing has proven EasyClean10 Glass Treatment to last beyond 10 years, enabling a genuine 10-year warranty on all new glass surfaces.

***EasyClean10 can withstand the elements!***

*Shower enclosures in bathrooms are a perfect place for EasyClean10!*

### **EasyClean10 Details: (cont.)**
